We are a very small school serving special needs students. Our funding is very small and we rely on help from the Universal Services Administration Company to reduce our Internet service. We were approved by USAC for funding for 7/1/17 – 4/30/19. We assumed, we now know incorrectly, that we did not have to file a form 471 and 486 each year of the approval period.

We have filed Form 471, which is out of window. We cannot file Form 486 until Form 471 is released.

We are asking for a waiver for the deadline on Forms 471 and 486, so that the USAC can complete its work.

Please help us provide a quality program to our special students.

Regards

James Helriegel
Business Manager
